

ARRIETA

Automated Regulatory Reporting Integration, Export & Transmission Application

Arrieta is the regulatory reporting production platform developed by Regulation Partners.

It automates the entire cycle: template retrieval, validation, export to standard formats and submission to regulators.

Arrieta is a web platform designed for teams in charge of regulatory reporting (AIFM, RUBA, COREP, DORA, FICOBA, OSCAMPS ...).
It centralises the production, validation and submission of regulatory filings within a single interface.

WORKFLOW STEPS

KEY POINTS

- **Multi-entity** — a user can belong to several entities, with a different role in each.
- **Versioned submissions** — each file upload is locked and retained for audit purposes.
- **Web and API access** — all features are also available through a REST API.
- **Trilingual** — interface available in French, English and Spanish.

FEATURES

Our tool enables you to:

- Catalogue reporting templates derived from regulatory taxonomies.
- Prepare a reporting file from an automatically generated blank Excel template.
- Validate completed files against the taxonomy's business and technical rules.
- Export reports in XBRL or CSV format, with a OneGate envelope for the ACPR.
- Track every validation attempt and every export in an immutable audit log.

ANNUAL PRICE

based on the number of regulatory reports
