

TEGUISE - GRC

Regulation Partners Innovation has developed a tool with 4 modules enabling you to carry out periodic and ongoing controls as well as risk mapping.

RISK MAPPING

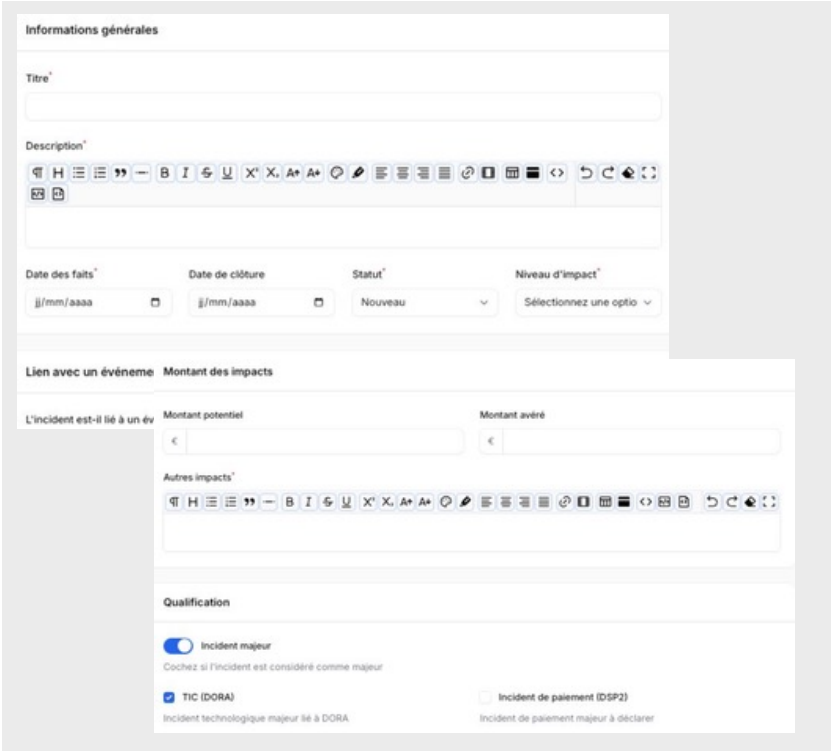

- Easily centralise your risk maps and access dashboards.
- Quickly identify your risks, their causes and consequences, and integrate control results, …

INCIDENT MANAGEMENT

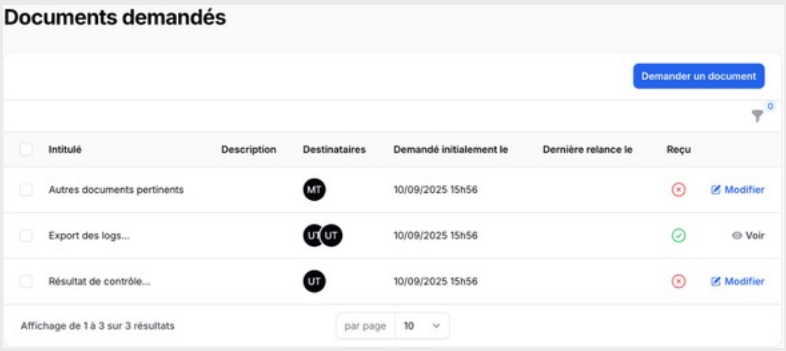

Our tool also includes an incident module designed to ensure rigorous, seamless and compliant incident management, from reporting through to closure, including sensitive cases requiring regulatory notification.

- Smart management of major incidents,
- Full, centralised traceability,
- Automated reporting and notifications,
- Operational time savings.

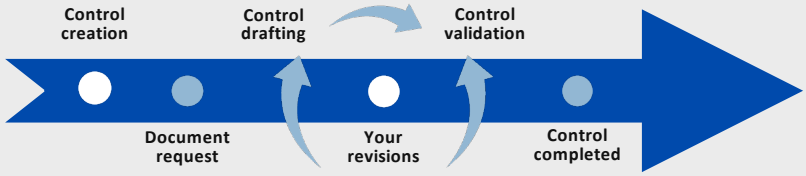

AUDITS AND RECOMMENDATIONS

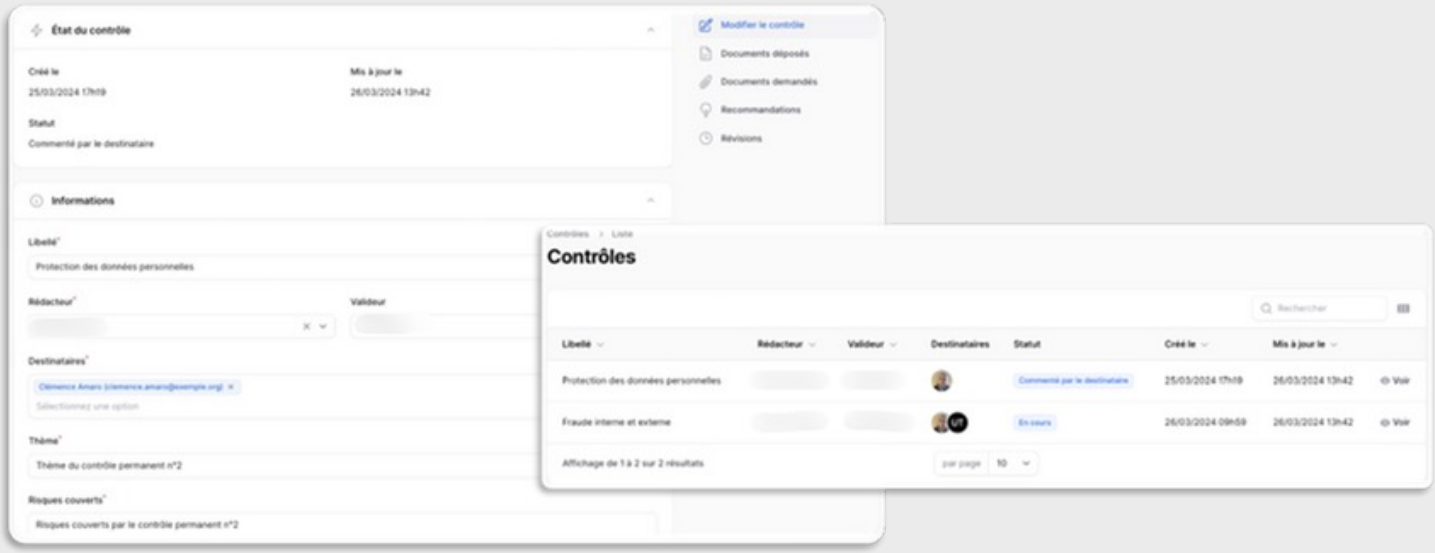

Centralise your audit engagements with findings / recommendations sheets, automated summaries, tracking of document requests and management of appendices. Clear, structured oversight to strengthen risk control.

ONGOING CONTROLS

- Enhanced data security.
- Automated control workflow.
